

„The time of our lives”

After our exchange students left Hungary we thought that that week was the best week of our life but we weren't right. Because the most wonderful week of all time was our trip to Belgium.

Between the two exchange programs we were constantly talking in our group chat still when

we arrived to the airport we realised immediately how much we missed them. Similarly to us they also organised a little welcome party for us on the first night, which was really cool. After that, on Sunday, the family day Kelsey, my exchange student, took me

to the coast. Even though the weather was quite windy, we had a lovely time. I really enjoyed spending time with her family and they were really amiable and kind with me. They tried to do everything for me in order to have a good time. We

talked a lot and got to know each other, we went into a restaurant and we spent quality time

together. Also I ate a delicious apple pie. What was really interesting for me is that, I think Flemish people eat much more desserts than us. So at the end of the day I was full

with many kind of sweets.

Unfortunately our family day was over but I was looking

forward to the school work too, I wanted to meet the exchange students of the other countries as well.

During the week we didn't really do separate programs with Kelsey because the days were really busy and the whole exchange group spent time together.

Luckily the atmosphere was so good we enjoyed every single minute together. We did many funny things together, but the two afternoons of the week when we visited Brugges and Gent were the best. Apart from visiting the famous sights, we had enough time to shop

and to visit other well-known places of Belgium (for example pubs 😊). I liked both cities

very much so I will definitely go back there once. I also really liked the city of the school, Waregem, which was pretty small but such a nice town. Although it was in the countryside, everything was really modern and well-organised.

To sum up I really enjoyed these two weeks. I am very grateful for every teacher who made this whole program possible and I am very lucky to meet all these fantastic people. I think we really made friendships for a life and we still talk a lot in our group chat and also on video chat. We even try to organise a trip to go back and visit them in the summer so I hope it will be possible. Last but not least I recommend you, dear reader, honestly if you have a chance to take part in an exchange program stop hesitating and apply right NOW.
